

# How to CRUSH the AP Stats Free Response

## Strategy #1: Know What to Expect

- 1-variable stats
- 2-variable stats
- Sampling methods or experimental design
- Probability
- Significance test
- Investigative Task

## Strategy #2: Survive the Investigative Task

- 25% of free response grade
- New stuff!
- 4 to 5 parts
- Parts are scaffolded

## Strategy #3: Have a Plan

- 90 minutes for 6 questions
- Take a practice test
- Two approaches:
  - 1 → 2 → 3 → 4 → 5 → 6
  - 1 → significance test → 6 → probability → others

## Strategy #4: Get All Your Points!

- Don't leave any blank
- Make up an answer
- Always use context
